

PASSPORT SOFTWARE, INC.

Since 1983, Passport Software, Inc. has led the field in providing superior accounting and business software solutions for customers who are serious about their accounting applications. Recompiled under AcuCobol-GT®, the Passport Business Solutions™ product has many new enhancements and features while maintaining the stability and strong audit trail capabilities expected in the accounting industry.

With thousands of installations of Passport Business Solutions worldwide, Passport has both the in-house expertise and a national network of highly qualified accounting professionals and systems integrators who assist in making your company more productive and more profitable.

We listen to our clients and have developed long-standing relationships with strategic partners and vendors who specialize in many industries, resulting in a broad array of solutions tailored to fit many unique business requirements.

Passport is committed to providing excellence in customer care and ongoing, innovative product development. Our main priority is to assist clients in achieving their critical business objectives, as we value each individual success as our own.

PASSPORT BUSINESS SOLUTIONS™ – SALES ANALYSIS

Identify your best customers, best selling items and services, productive sales reps, and strong sales regions.

- Five-year comparative information for customers and items can be used to create monthly, quarterly, or yearly analysis reports.
- Save up to 16 selections for each report by assigning a report name and description.
- Costs, margins, percent of sales and percent of margin can be selectively included on or excluded from reports.
- Select a range of customers, items, sales representatives, zip codes, states, dates, and more, depending on the report. Summary reports without detail can be printed.
- Requires Passport Business Solutions Accounts Receivable and Inventory Control packages, and either Order Entry or Point of Sale.
